2020 YIS Award Winners

The John R. Cameron - John R. Cunningham Young Investigators Symposium was a competition for new investigators within a special symposium held in honor of John R. Cameron from the University of Wisconsin, and John R. Cunningham from the Princess Margaret Hospital, and subsequently from the University of Alberta. There were 10 finalists selected according to the quality of their abstracts. A panel of judges has scored each oral presentation according to criteria that includes scientific merit, originality, and organization of the material.

Congratulations go to:

1st place: **Irwin Tendler,** Dartmouth College for the abstract entitled: "First-Time Imaging of Light Generation in the Eye During Radiotherapy"

2nd place: **Nathan Orlando,** Western University, London, ON, CA for the abstract entitled: "RmU-Net: A Generalizable Deep Learning Approach for Automatic Prostate Segmentation in 3D Ultrasound Images"

3rd place: **Lindsay Bodart**, University of Wisconsin – Madison for the abstract entitled: "Fiducial-Based Tracking of a Transthoracic Echocardiography Probe in X-Ray Fluoroscopy for X-Ray/echo Co-Registration"
