Township
Inspira Medical Center Mullica Hill

And Many More.....

Founded in 1975, the AAPM NJ chapter (NJMPS, New Jersey Medical Physics Society) proudly serves medical physics community of the state of New Jersey, with a membership base spanning institutions like CINJ/Rutgers, MSKCC satellites, Princeton, and many more.

2024 Chapter Officers at Your Service

Serving Medical Physicists in New Jersey

With a membership base extending throughout the New Jersey region, we cater to approximately 150 active members. Our primary objective is to advocate for the interests of medical physicists in the New Jersey area. We endeavor to facilitate networking and collaboration opportunities while providing support and empowerment to members of the New Jersey medical physics community.

Host Mock Oral Exams

We are diligently coordinating efforts among our members to organize mock oral exams aimed at providing constructive feedback to the community. These initiatives are designed to assist junior members in preparing for board certification exams. This year the tentative Mock Oral date will be Aug/8th. Please pay close attention to our website for the latest information.

Our Mission

<https://www.njmeps.org/>

Host Annual Meetings and Outings

We organize one to two annual meetings along with occasional outings as circumstances permit. These meetings showcase distinguished speakers from the local area who share innovative research and clinically relevant topics. We award lifetime achievement awards to members of our community who have dedicated themselves to our profession. Additionally, to foster networking among medical physicists, we are in the process of arranging casual outings in the near future.

Encourage Junior Members

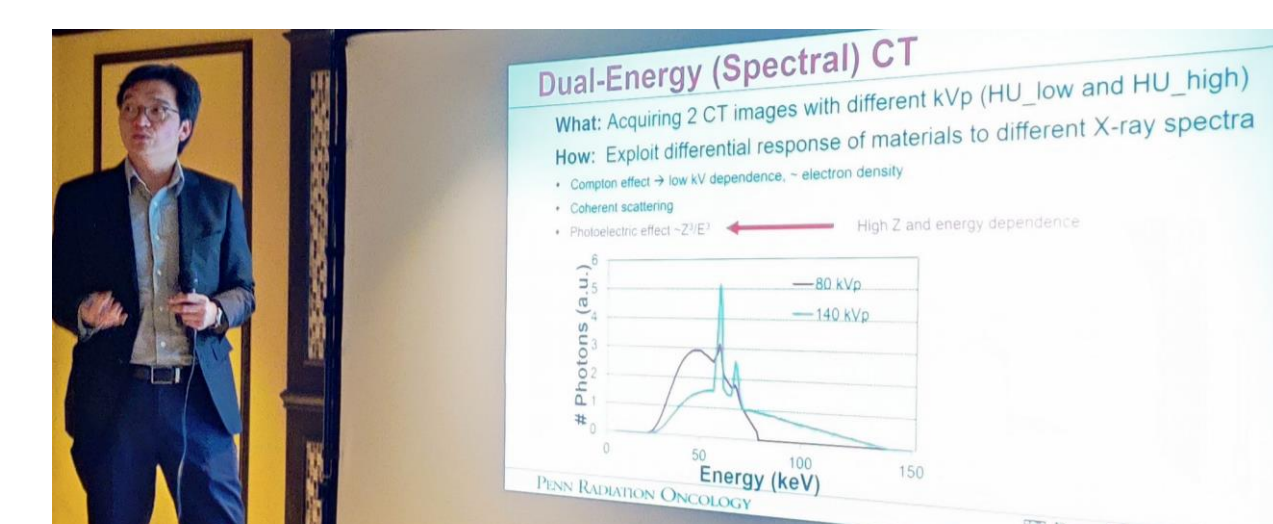

Every year during annual meetings, we host a medical physics slam competition. Medical Physics Slam is a three-minute elevator pitch competition where students and trainees can practice communicating their research to a lay audience. The winner will represent our chapter in a final competition organized by the AAPM Students and Trainees Subcommittee.

Chapter meeting in 1980. Top row: Richard Breslow, Ken Kopecky; Middle row: Bill Hillsinger, Gary Zkyes, K. David Steidley, Henry Switaj, Mr. and Mrs. Herb Strauss (friends of Lillian), Joan Seibert; Bottom row: Maimu Ohanian, Lillian Jacobson, Jonathan Law, Steve Nagy.

Chapter meeting in 2023. Cake cutting to celebrate Dr. Jack Yang's retirement.

Chapter meeting in 2023. Celebrating Dr. Jack Yang's retirement and extend our appreciation for his significant contributions, exceptional leadership and enduring friendship within our community.

Chapter meeting in 2023. Dr. Heng Li from JHU was invited to present "AAPM TG290 Respiratory Motion Management for Particle Therapy." Dr. Venkat Narra from Summit Medical Group MDACC was invited to present "ASTRO's Apex-Accreditation Program for Excellence."

Chapter meeting in 2024. Dr. Kevin Teo from UPenn was invited to present "Application of Dual Energy CT in Radiation Therapy." Dr. Xiang Li from MSKCC was invited to present "AI-Empowered Target Decomposition Technique for Markerless Intrafraction Tumor Motion Monitoring." MedPhys SLAM competition top3 place winners, Drs. Tan Phan, Alex Wei and Chengzhu Zhang.
