- Multi Use Trail - Pedestrian / Cycling
- Pedestrian Only Trail
- Urban Trail (Asphalt Multi use)
- Conservation Area Boundary

Danger - Steep Terrain and Cliffs. No Access

— Watercourse

P Parking

? Information Kiosk

## Trail difficulty rating

Posted signs explain the degree of difficulty for each trail much the same way ski hills are marked. These signs will help to make informed decisions about which route matches your skill level. Watch for these markers at the entrance and junctions of each trail. They list the trail name, details about the route, and global positioning (GPS) reference. Unless otherwise posted, all trails are multi-use: for walkers, hikers and cyclists.

- BEGINNER** Wide smooth gravel trails, gentle grades good sight lines.
- INTERMEDIATE** Narrower gravel or dirt trails. May have natural obstacles, and steeper grades to 20%. Requires good level of fitness.
- ADVANCED** Narrow, steep trails with sharp corners, natural obstacles, grade drops and poor traction on some sections. Requires high level of experience and fitness.

## Trail wisdom: play it safe

Our trails are shared and accessed by a variety of users at the same time - from beginner to advanced hikers and cyclists. As well, one trail is provided for equestrian users. Please be courteous to all and remember that pedestrians have the right-of-way.

**Some trails travel through very steep terrain. It is extremely important to stay on the trails at all times.**

All trail users stay to the right hand side of the trail.

Before you set out let someone know where you are going and how long you will be gone.

Remember this is a Conservation Area. Wildlife can include bears, coyotes, cougars. Beware.

Leave the Conservation Area in high winds.

Don't be a litter bug.

All trails are closed at night between dusk and dawn.

**Riders**  
Maintain control of your bicycle at all times. Wear a helmet and appropriate safety equipment. Never ride alone. To minimize environmental impact avoid riding in wet conditions. The trail conditions are subject to change. Inspect trail features prior to ride. Ride within your limits. Call the City to report damage or danger (604-294-7450)

**IN CASE OF EMERGENCY CALL 911 AND GIVE TRAIL NAME AND GPS COORDINATE ON NEAREST POSTED SIGN.**

Use this map for general reference only. Information is approximate and may not be current.
