VISUAL AIDS FOR 
TEACHING DIAGNOSTIC RADIOLOGICAL PHYSICS 
TO RADIOLOGY RESIDENTS

The AAPM Training of Radiologists Committee has compiled a slide series on CD to aid in the education of Radiology Residents by visually demonstrating various imaging principles and artifacts. The series contains approximately 200 slides and includes explanatory annotations for each slide.

Topics include:

- Film-Screen Radiography
- Digital Imaging
- Ultrasound Imaging
- Magnetic Resonance Imaging
- Computed Tomography Imaging
- Nuclear Medicine Imaging

This material is intended to supplement didactic lectures by elucidating physics principles through images. Additional slide contributions are encouraged and may be sent to Cynthia McCollough, Chair, Training of Radiologists Committee or the AAPM headquarters.
