This scheme (above) is used throughout the meeting, except on Sunday. There are two one-hour blocks in the morning used for continuing education courses, Blocks A and B. Blocks C and D correspond primarily to the scientific sessions (for oral presentations). However, there are occasional continuing education courses, symposia or workshops in these time blocks as well. Block E is reserved primarily for the afternoon symposia. However, occasionally continuing education courses, workshops, or scientific sessions may be in these time blocks as well.

In general, therapy-related sessions have been assigned to Rooms BRA, BRB, and 303; diagnostic imaging related sessions have been assigned to Rooms 305, 310, 315, 317, and 319. All Workshops have been assigned to Room 310.

Poster sessions are laid out spatially, not temporally, like the oral presentations. Poster boards are marked with the abstract identifier. All Moderated Poster Discussion sessions will be held Sunday, July 25.
