Rules and Regulations

Purpose of the Display
AAPM (hereafter known as "Exhibit Management") reserves the right to determine the eligibility of any company or product for inclusion in the exposition.

The Exhibit is an integral part of AAPM's Annual Meeting program. Its purpose is to further the scientific, technical, and educational advancement of the theory and practice of medical physics and the related arts and sciences. As much as possible, the exhibits will supplement scientific and technical sessions.

To assure that the exhibit will further the above purpose, admission to the exhibit is limited to qualified persons with interest in medical physics or related equipment, products, and services. Companions ages 12 through 17 will be allowed in the Exhibit Hall but must be accompanied by a registered attendee at all times. Children 11 and under will not be allowed in the Exhibit Hall.

Products may not be sold for delivery on the exhibit floor with the exception of publishing companies who have been approved by Exhibit Management. All other Exhibitors will be permitted to take orders for the sale of their products or services at the show provided their products or services are substantially related to the science of medical physics. Exhibitors will not actively solicit visitors for sales or orders, but only furnish visitors with a price list for their products or services and indicate on the list that visitors may purchase Exhibitor's products or services.

NEW THIS YEAR

consecutive year a company has exhibited, going back nine years. A maximum of 36 points can be accumulated this way. Three points are given for each year exhibited non-consecutively.

The date-point tier begins January 26. Two points will be subtracted from this sixty-point maximum for each application received each business day thereafter. No points are given for applications received after 30 days.

Bonus points earned by sponsoring AAPM Annual Meeting events will be added to the aforementioned system. Total points, Corporate Affiliate level and Exhibitor preference regarding proximity to other exhibiting companies will be used to break ties. Exhibit Management Policy: Exhibit Management reserves the right to rearrange the floor plan at any time when such action is deemed to be in the best interest of the total exhibit effort. Exhibit Management reserves the right to relocate exhibitors should it become necessary for causes beyond the control of AAPM, or advisable in the best judgment of AAPM to transfer assignments.

Payment
The Application for Exhibit Space must be accompanied by payment in full in the form of either a credit card payment or a check in U.S. funds drawn on a U.S. resident bank.

**Exhibitor Activities**

Exhibitors will submit to Exhibit Management 30 days prior to the exhibit date any program Exhibitor intends to hold at or in conjunction with its exhibit for written approval.

The following are designated times when Exhibitors may conduct any of the above-mentioned activities:

- Sunday night after 8:30 p.m.
- Monday night after 7:30 p.m.
- Wednesday night after 5:30 p.m.,
- Monday - Thursday during the 1½ hour lunch break from Noon - 1:30 p.m.

An official “Exhibitor Function Request Form” will be included in the AAPM Service Kit. Please complete the form and forward to AAPM at that least 30 days prior to the exhibit date.

Any advertising or activity on the convention center property must have AAPM approval.

**Restrictions**

Exhibit Management reserves the right to restrict exhibits which are objectionable because of noise, glaring or flashing lights, method of operation, or any other reason, and also to prohibit or evict any exhibit which in the opinion of Exhibit Management detracts from the general character of the exhibit. This reservation includes persons, things, conduct, printed matter or anything Exhibit Management judges to be objectionable. In the event of such restriction or eviction, Exhibit Management is not liable for any refund of any amount paid hereunder. Demonstrations must be located so that crowds collected will be within the Exhibitor’s space, and not blocking aisles or neighboring exhibits. Contests of any kind must first be approved in writing by Exhibit Management.

**Signs**

It is prohibited to hang signs or banners from rafters above exhibits or to attach to any convention center structure.

**Photography**

Picture taking, other than by the AAPM official photographer, is prohibited, with the exception of an Exhibitor photographing his or her own display area. Each Exhibitor has control over the space it has rented and may prevent those considered its competitors from gaining access to, photographing, video taping or otherwise mechanically recording its exhibit or presentations. Exhibitors are encouraged to report any violations of this rule to Exhibit Management. No Exhibitor will deny any reasonable request from Exhibit Management to photograph the exhibit from outside the perimeter of the booth.

**Distribution of Printed Materials and Hotel Door Drops**

Distribution of printed materials by an Exhibitor is limited to their rented space in the exhibit hall and meeting areas. This restriction also applies to the placement of signs in any hotel used by the AAPM to house registrants of the meeting. No Exhibitor printed or promotional items are allowed in the Attendee registration packet.

Exhibitors are allowed to distribute printed materials as door drops at the designated AAPM hotel. An official “Exhibitor Door Drop Request Form” will be included in the AAPM Service Kit. Please complete the form and forward to AAPM at that time as instructed. Exhibitors will be responsible for any fees involved.

Distribution of food and/or beverages is not permitted unless it is a product that the company promotes. Cooking or food preparation is not permitted. Products such as individually wrapped candy or mints for consumption are acceptable.

**Entertainment**

The use of music (live or recorded), dancer, mimes or other entertainment similar to this is not permitted in the exhibit hall.

**Special Effects & Product Presentation**

All exhibitors utilizing sound amplification are required to amplify at a decibel level that will not interfere with
the activities of neighboring booths. In the event of a dispute as to whether amplification is too loud, AAPM Exhibit Management reserves the right to make the final determination of acceptability. Failure by an exhibitor to comply with a request to reduce or eliminate sound amplification will result in the loss of all booth assignment points accumulated in 1999 and/or refusal to allow sound amplification in the booth for the duration of the meeting.

**NEW THIS YEAR**

**AAPM Annual Meeting**

**Logo Use**

Photostats of the official meeting logo will be provided in the Service Kit and can be used for promotional pieces and advertising related to the annual meeting. The use of the AAPM association logo with endorsements, statements, contests, and/or awards of any kind, without the expressed written consent of the AAPM is prohibited.

**List of Exhibitors**

The list of AAPM Exhibitors will not be published, in whole or in part, other than in AAPM official publications. Said list will not be released for use by others for promotional purposes.

**Responsibility**

If the Exhibitor fails to comply in any respect with the terms of this agreement, Exhibit Management will have the right, without notice to the Exhibitor, to offer said space to another Exhibitor, or to use said space in any other manner, but this will not be construed as affecting the responsibility of the Exhibitor to pay the full amount specified by the contract.

**Compliance**

The Exhibitor assumes all responsibility for compliance with all ordinances, regulations and codes of authorized Federal, State, and City governing bodies concerning fire, safety, and health, together with the rules and regulations of the operators/owners of the property wherein the exhibit is held. Federal, State, and City laws must be observed. Wiring must comply with Fire Department and UL rules.

**Liability**

The AAPM and the Opryland Hotel Convention Center, its agents or employees will not be responsible for any loss, theft or damage to the property of the Exhibitor, their employees or representatives. Further, Exhibit Management will not be liable for damage or injury to persons or property during the term of this agreement from any cause whatsoever by reason of the use of occupancy of the exhibit space by the Exhibitor or their assigns, and the Exhibitor will indemnify and hold harmless Exhibit Management and the Opryland Hotel Convention Center from all liability which might ensue from any cause whatsoever.

If the Exhibitor’s material fails to arrive, the Exhibitor is nevertheless responsible for all amounts due hereunder. Exhibitors are advised to carry special insurance to cover exhibit material against damage and loss, and public liability insurance against injury to the persons and property of others.

**Cancellation or Termination of Exposition**

In the event that the premises where the exposition is to be held will, in the sole determination of Exhibit Management, become unfit or unavailable for occupancy, or will be substantially interfered with, by reason of picketing, strike, embargo, injunction, act of war, act of God, fire, or state of emergency declared by any government agency or by reason of any municipal, state, or federal law or regulation or by reason of any other occurrence beyond the control of Exhibit Management, Exhibit Management may cancel or terminate the exposition. In the event of such cancellation, the Exhibitor waives any and all claims the Exhibitor might have against Exhibit Management for damages or expenses and agrees to accept incomplete settlement and discharge of claims against Exhibit Management the exhibitor’s prorata share of the total amount paid by all Exhibitors less all costs and expenses incurred by Exhibit Management in connection with the exposition including a reserve for future claims and expenses in connection therewith.

**Management**

Exhibit Management reserves the right to interpret, amend, and enforce these regulations as it deems proper to assure the success of the exposition.
Booth Design Rules and Regulations

The following Booth Design Rules and Regulations have been developed to assist in effectively administering the exposition and to promote continuity in exhibit design and set-up for displays at the AAPM Annual Meeting. All exhibitors are considered equal regardless of size and are given equal opportunity, within reason, to present their product in the most effective manner to the audience. Exhibit Management has adopted the following booth dimension rules and regulations from the International Association for Exposition Management in an effort to make this possible while still allowing the greatest flexibility in the overall exhibit.

Review of Technical Exhibits
Members of the AAPM Technical Exhibits Subcommittee will be on hand to advise exhibitors of any rule violations during the initial stages of booth set-up. Upon arrival Exhibitors will be required to notify Exhibit Management of the start time of their booth construction. During the set-up process, Exhibitors will be given the opportunity to correct any violations to the AAPM Booth Design Rules and Regulations. An official review of all Technical Exhibits will take place on Sunday, July 25 at 3:00 p.m. A representative from each exhibiting company must be present in the assigned booth for the review.

During the official review, companies will again be informed of any infringement and will be given the opportunity to correct the infringement prior to the show opening at 8:30 a.m. on Monday, July 26. If the infringement has not been corrected by that time, the following penalty will apply:

Penalty Rule for Booth Design/Set-up Violations:

Minor Violation: Verbal and written warning.

Major Violation: Drop in preference selection of ten positions. For example, a vendor with 1st choice of location this year would have no better than 10th choice next year.

NOTES:

1. Any vendor showing a potential violation during set-up will be adequately warned by Exhibit Management if at all possible to allow correction before final inspection.

2. Final judgment of violations will occur during final inspection and will be at the sole discretion of Exhibit Management.

Booth Construction and Arrangement
Exhibits will be so arranged as not to obstruct the general view, nor hide the exhibits of others. Plans for specially-built displays not in accordance with regulations are to be submitted to Exhibit Management before construction is ordered.

Regular and specially-built back walls, including signs, may not exceed an overall height of 8’. The maximum booth height of 8’ may extend ½ the depth of the booth from the back wall. Height limitation of the display in the balance of the area is 3’, except for products or equipment which in itself exceeds 3’. Projections of booth structure from the back of a booth in excess of 3’ in height and extending to the front of the booth are not allowed.

No display material exposing an unfinished surface to neighboring booths will be permitted.

Connection of Islands Across Official Aisle Space
If an exhibitor wishes to connect one island formation with a second island formation across an official designated aisle, be it with a sign or archway, the exhibitor will be responsible for the rental of the entire aisle space that runs the length of each booth. The price of the aisle space is $2,000 per 10’ x 10’ space.

Example: If two 20’ x 30’ booths are rented by one exhibitor and said exhibitor wishes to connect the two booths across an official aisle, and that aisle space measures 10’ x 30’ in space, the exhibitor will be responsible for the rental of the entire 10’ x 30’ aisle space. ($2,000 x 300 sq. ft. = $6,000)

Submission of Scale Drawing for Island Formations
Exhibitors will be mailed booth assignment notifications on April 15. Exhibitors reserving island space are then required to submit for approval complete scale drawings, both concept and construction, indicating all dimensions including applicable set back, to AAPM HQ by Friday, April 30.

Exhibitors will be assigned the size of island space as requested on their Exhibitor Application and Contract. Therefore, prior to the submission of the Application, it is the responsibility of the Exhibitor to make sure the space requested will accommodate a booth design that conforms to the AAPM Booth Design Rules and Regulations pertaining to island booths.

If the scale drawing submitted on April 30 does not comply with the AAPM Booth Design Rules and Regulations, the Exhibitor must either redesign the booth to come into compliance or request a larger space. There is no guarantee that larger space will be available at that time. (See Page 8 for Exhibit Management Policy regarding Space Assignment Process.)
Booth dimensions

All exhibits must conform to the dimensions outlined below in order to assure ease of movement of participants and clear lines of visibility in the exhibit hall. For more information on booth dimension guidelines please contact AAPM HQ.

**NOTE:**

*Ryman Exhibit Hall C contains numerous 2’ 4”columns.* All columns will be draped. Please pay attention to the columns indentified on the floorplan with the symbol “O” when selecting desired space. Booths shown on the floorplan are located so that columns will not interfere with booth design structures.

| **Easement**             | As in Standard Booth above. |

| **Corner Booth:** | A corner booth is defined as a booth having two sides that meet to form a right angle and that each of those two sides are exposed to a designated aisle. |

| **Island Booth:** | Exhibit with one or more display levels in four or more standard units with aisles on all four sides. |
| **Height**       | No height restrictions. **The ceiling height for Opryland Ryman Exhibit Hall C is 19 feet.** |
| **Depth**        | The basic exhibit structure may not be closer than 4’ to any external boundary of the exhibit space. However, the 4’ area may be occupied up to 8’ in height by the following if it does not interfere with other exhibitors: |
|                  | a. Equipment that is not used for demonstrations, unless the demonstration is clearly directed inside the booth. This is intended to keep customers participating from standing in the aisle. |
|                  | b. Displays or signage, as long as the display does not constitute a demonstration. Displays, such as TV monitors, that constitute a demonstration, must be placed behind the four feet easement and be of a size to attract customers onto the easement for viewing. This is intended to keep customers from standing in the aisle. |
|                  | c. Clear, or a maximum of 20% tinted plexiglass structures with limited copy to permit see-through visibility, such as for conference areas, etc. |
|                  | d. Minimal structural and support members at least 8” apart of open type construction which, in the opinion of the AAPM, do not interfere with other exhibitors. |
