

ACMP Abstract #8080

Lynne Fairbent

There are many changes to the regulations affecting medical physicists. During this presentation, the changes regarding fingerprinting, granting unescorted access to category 1 and 2 material, current status of 10 CFR Part 35 and board recognition will be discussed. In addition, the current status and impact of the CARE legislation will be discussed. Finally the joint AAPM/ACMP grassroots initiative will be discussed and the importance of member participation in this activity will be presented.
