Southern California chapter of the AAPM (SCCAAPM) represents medical physicists from the regions of southern California and southern Nevada. Until 2010 south western Arizona was also part of our chapter. AAPMSSC was founded in 1970 by, among others, Norman A. Baily, Jerald W. Hilbert, John Schaefflein, and Ralph Worsnop. One of their first major tasks was local arrangements for the Annual National Meeting in San Diego in 1973. Since then, we have hosted national meetings in 1994 (Anaheim), 2003 (San Diego), and 2009 (Anaheim).

Chapter Meetings

Our chapter has had from two to three dinner meetings per year. The format consists of a board meeting in the afternoon, followed by dinner and a short presentation. We used to have an annual dinner meeting co-hosted by the Los Angeles chapter of the Health Physics Society. This meeting was always held at Les Freres Taix Restaurant in downtown Los Angeles. Other meetings were held at Knott's Berry Farm, and Anderson's Pea Soup Restaurant in Carlsbad. More recently, we have been meeting in local universities, including UCLA, UC Irvine, and UC San Diego.

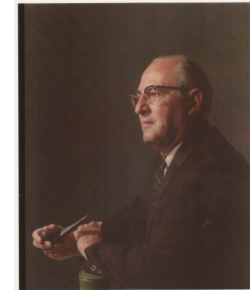

SCCAAPM Educational seminars (Norm Baily awards)

Norm Baily organized Spring Seminars which were held in Palm Springs and Las Vegas in the 1970's and 80's. Norm was acknowledged for his contributions in 1986 with the creation of the Norman A. Baily Student Research Award. This award is now presented to outstanding medical physics students and post-docs at our Spring dinner meeting.

Midwinter Workshops

Early in the history we joined the Los Angeles Radiological Society (LARS) to attend the Mid-Winter Conventions in Los Angeles where we held the educational seminars. Our Midwinter Workshops started in 1985 and they were held around the same time as LARS. But since 2002 Steven J. Goetsch started organizing the workshops primarily at the Sheraton Universal Hotel in Universal City on the top floor overlooking the San Fernando Valley. These seminars attracted speakers from throughout the United States. At our seminars we invited 7 President-Elects of the National AAPM, a representative from the American College of Radiology, and the California Radiological Health Branch to speak. We had speakers from such institutions as UCSF, City of Hope, University of Pittsburgh, UCLA, Princess Margaret Hospital, University of Wisconsin, Massachusetts General Hospital, Fox Chase Cancer Center, Stanford, University, M.D. Anderson, UC Davis Medical Center, and Columbia University. The meetings were organized around such topics as: Image Guided Therapy, New Perspectives in Medical Physics, CT in Medicine. A typical Workshop program, and several pictures of our speakers are seen below.

Midwinter Workshop Friday, February 25, 2005
"CT in Medicine"

7:00 a.m. Registration and Continental Breakfast
8:00 a.m. Steve Lee, UCLA Medical Center, "Image Guided and 4D Radiotherapy"
8:45 a.m. Nicole Wink, UCLA Medical Center, "Respiratory Gating with CT"
9:15 a.m. Tim Schultheiss, City of Hope Medical Center, "Acceptance Testing of a Novel Rotational Radiation Therapy Unit"
10:00 a.m. COFFEE BREAK
10:15 a.m. David Jaffray, Princess Margaret Hospital, "Cone Beam CT for Treatment Planning"
11:00 a.m. Melissa Martin, Therapy Physics Inc., "PET/CT Shielding: Assumptions and Strategies"
11:45 a.m. LUNCH AND VENDOR PRESENTATIONS
12:45 p.m. Diane Cody, M.D. Anderson, "Multidetector/Flat Panel/Helical CT Technology"
1:30 p.m. Christoph Panknin, Siemens, "Emerging Technology and Cardiac CT"
2:00 p.m. David Brenner, Columbia University, "Radiation Risk with CT"
2:45 p.m. BREAK
3:00 p.m. Michael McNitt-Gray, UCLA Medical Center, "CT Dosimetry: Methods for Measurement and Estimation"
3:45 p.m. John DeMarco, St. Jades Medical Center, "Estimating Actual Patient Radiation Dose from CT: Monte Carlo Simulations"
4:15 p.m. Thomas Ruckdeschel, M.S. Alliance Medical Physics, "CT Accreditation: A Look from Both Sides of the Fence"
