| <b>Reported by (Name):</b>   | Wesley Culberson  |
| <b>Organization:</b>   | University of Wisconsin - Madison   |
| <b>Position Title:</b>   | Associate Professor and UWADCL Director   |
| <b>Activity:</b>   | Council on Ionizing Radiation Measurements and Standards (CIRMS) Annual meeting   |
| <b>Meeting Dates:</b>  | Due to COVID-19 restrictions, the CIRMS Annual Meeting was postponed from 2020 and is rescheduled for 2021.   |
| <b>Meeting Location:</b>   | N/A   |
| <b>Payment \$:</b>   | None for 2020   |
| <b>Reasons for Attending or not Attending</b>                                | N/A   |
| <b>Issues from Previous Meetings or Year:</b>                                | A number of radiation dosimetry standards were discussed at the previous annual meeting at NIST in Spring, 2019. The outstanding issues include radiobiology standards for radiobiological experiments, small field dosimetry, and particle therapy accelerator calibration and dosimetry.  |
| <b>General Description of Activities of the Organization and/or Meeting:</b> | CIRMS is a multi-disciplinary non-profit organization which seeks to elevate the needs of all aspects in the field of ionizing radiation, drawing on the experience and knowledge of industry, academia, and government professionals. Through this collaborative group, the needs of our field are distributed to government agencies and potential funding sources.   |
| <b>Issues for AAPM:</b>  | CIRMS will be working to create a Needs Report in the following year to present the needs for standardized dosimetry particularly in areas of radiation biology and targeted radionuclide therapy that affects radiation therapy research. There are also needs for more accurate radiation dosimetry in MRI environments, and updates to the clinical dose reporting methods for particle therapies such as RBE and LET. |
| <b>Budget Request (\$):</b>  | N/A   |
