RADIATION ONCOLOGY ALTERNATIVE PAYMENT MODEL

The Consolidated Appropriations Act, 2021 (H.R. 133) enacted on December 27, 2020, includes a provision that prohibits implementation of the Radiation Oncology Model prior to January 1, 2022, effectively delaying the start date by 6 months. CMS plans to provide additional information on the delayed implementation.

In light of this delay, the RO Model Team is delaying the RO Model Billing webinar scheduled for January 13th until further notice.
