MedPhys Slam: Video Submission Instructions & Rules

Who is Eligible?
Individuals must be current Student, Junior, or Resident members of AAPM or COMP at the time of the 2020 Joint AAPM/COMP Annual Meeting. Individuals involved in planning the final MedPhys Slam competition are not eligible. Presentations must be based on your own, original research. Finalists and winners of MedPhys Slam from previous years are eligible to compete provided they still meet all eligibility requirements as a new participant and present new, original research. To be eligible to enter the video submission competition, you must be a current Student, Junior, or Resident member of AAPM or COMP and meet one of two criteria: (i) You live outside the United States, and are therefore not a member of an AAPM chapter, or (ii) You live within the United States, but your AAPM chapter is not holding a qualifying competition for MedPhys Slam 2020.

How do I Enter?
Video entries will be submitted via an unlisted YouTube link.
1. Create a YouTube account if you do not already have one.
2. Log in to YouTube.
3. Click on Upload at the top of the page.
5. Select the video that you would like to upload.
6. Click “Share” to get the link for your video.
7. Provide us with your video link in your application form.

Video Submission Rules
In addition to the judging criteria and general rules outlined for AAPM chapters, the following additional rules apply to video submissions:

- Presentations are limited to 3 minutes, any presentations exceeding 3 minutes will be disqualified.
- Presenters should have a title slide that shows their name, institution, and talk title.
- The video itself may be longer than 3 minutes. The presentation is considered to have commenced when the presenter starts their presentation through movement or speech. The title slide is not included in the timed presentation.
- The 3-minute audio must be continuous (no edits or breaks).
- The filmed video must have only one camera angle filmed from a static position. Zoom in and out from the static position is acceptable.
- No additional electronic media are permitted within the video recording.
- While the recording quality is not included in the judging criteria, if the judges cannot see or hear you clearly, they will not be able to judge accurately.
